## 3. WALK AROUND THE OLD TOWN

In the middle of the Old Town Market Square you will find a statue of the famous Warsaw Mermaid, surrounded by colourful facades of tenement houses. Legend has it, one of their cellars was once inhabited by Basilisk – a dragon which could turn everyone he looked at into stone. [Museum of Warsaw](#), located in one of the houses, is a great place to discover the city's history. A famous Polish Nobel Prize winner – [Maria Skłodowska-Curie](#) was born and lived in the Old Town – her house has been turned into a museum – well worth a visit. Next you can visit the [Museum World of Illusion](#) and learn how our own brain can play tricks on us! The exhibits on display will certainly boost the kids' creativity and get them engaged in the optical illusions.
